## BC Hockey Academy presents

# BORIS DOROZHENKO NEXT GENERATION HOCKEY

BC Hockey Academy, Victoria Racquet Club Minor Hockey and Russ Courtnall are excited to bring internationally renowned skating instructor Boris Dorozhenko back to Victoria in 2009!

Boris Dorozhenko, founder of the Next Generation Hockey Program, has trained and worked with top players internationally. Boris has helped his students to drastically improve their abilities to higher levels with his unique approach. Practices are extremely focused, disciplined and involved.

The Next Generation Hockey Program breaks down the sport of hockey into its key elements and provides each player with a deeper understanding of these elements and skills. On and off the ice, players will improve their confidence, balance, agility, and strength. A player's knowledge of skating and how it relates to their success will be unparalleled.

Boris' skating style, and approach to core hockey skills originates from his own hockey roots as part of the Russian / Eastern European hockey tradition, and can now be found throughout Europe and North America through the limited training sessions Boris offers each year.

Players from BC are invited to return and join other international players in Victoria to experience the "Next Generation Hockey System"

Space is Limited - Participation is by Application ONLY

Apply Today!

"Hard work beats TALENT ...  
when Talent doesn't work hard."

"When players with a strong individual drive, passion, and a serious work ethic are combined with these unique training methods, they produce unbelievable results ..."

Boris Dorozhenko

"Boris' skating instruction is simply the most unique and effective style I have ever seen, and the results are almost immediate"

Russ Courtnall
